

**Documentation for replication materials for "The Dynamics of Inequality" (2016) by Xavier Gabaix, Jean-Michel Lasry, Pierre-Louis Lions and Benjamin Moll**

This archive contains the Matlab code that is necessary to reproduce all the figures in the paper.

These Matlab codes are in the subfolder **make\_figures\_matlab** and they produce the figures in the subfolder **figures**.

Some of the figures require data input. All data input is in the subfolder **data\_input**. The sources for these files are as follows (more detail in the paper):

**World Wealth and Income Database <http://www.wid.world/>:**  
T2012IncomeExclGainTop1.txt, T2012IncomeExclGainTop01.txt, T2012IncomeExclGainTop10.txt, T2012WageTop1.txt, T2012WageTop01.txt, T2012WageTop10.txt. The files T2012XIncome.txt and T2012XWage.txt contain only the corresponding years.

**Saez and Zucman (2016) <http://gabriel-zucman.eu/files/SaezZucman2014MainData.xlsx> and Wolff (1987, Table 3):**  
WealthTop1\_SCF\_Wolff.txt, WealthTop01\_SCF\_Wolff.txt, WealthTop10\_SCF\_Wolff.txt, WealthTop1\_SZ.txt, WealthTop01\_SZ.txt and WealthTop10\_SZ.txt.  
XWealth\_SCF\_Wolff.txt and XWealth\_SZ.txt are again simply the corresponding years.

**Piketty and Zucman (2014a) <http://gabriel-zucman.eu/capitalisback/>**  
Piketty\_Zucman\_USA\_countryfile.xls

**Auerbach and Hassett (2015), private communication**  
Auerbach\_Hassett\_Tax\_data.xls
